relax & work – at Rayaworx

Coworking means 'work for yourself, not by yourself' – it's a productive place for a great many professionals, such as independents, freelancers, founders, coaches, authors, consultants, researchers, developers, trainers... Be **flexible**: You can reserve a coworking place according to your needs at a hourly, daily, weekly or monthly rate. Bring your own laptop and cellphone.

Rayaworx: more than a shared office space

Rayaworx offers **Coliving** in Santanyí to you with your hosts Doris & Rainer. The two connect you with the local coworking community - for example at regular events in their space. They will take you to leisure activities such as exploring the area, running or yoga. In addition to joint visits to the gastronomy, there is also the opportunity to participate in networking events and meetups in the region and Palma.

By the way, Mallorca combined with coworking is a perfect fit for feelgood concepts of agencies or medium-sized companies: just talk to Doris & Rainer about their experiences.
